Thai Traditional Medicine
Reg. No. G 705/68

Ingredients

This product is created from our Thai wisdom. The product is formulated using premium grade Thai herbal extracts plus the innovation from our laboratory. With our technology, this product shows fast absorption, penetration, and not sticky.

Thai Herbal Ingredients & Its Therapy

Phlai (*Zingiber cassumunar* Roxb.)

- Use our own innovative technique to extract the high quality of essential oils from Phlai.

Therapeutic Properties

- Relieve muscular or articular pains (muscle pain and ankle sprain) and show antioxidant property (protecting skin against the harmful free radicals that hurt skin cells DNA, leading to conditions like fine lines and skin laxity).
- Known as natural antimicrobial, antibacterial, anti-fungal and anti-inflammatory properties.

Derris scandens Roxb.

- Use our own technique to extract the high % of phytochemicals (isoflavones and coumarins) from *Derris scandens* Roxb.

Therapeutic Properties

- Recommended in Thailand National List of Essential Medicines (NLEMs) for musculoskeletal pain treatment and relieve muscle pain as herbal medicine.
- Heal osteoarthritis and muscle inflammation

Turmeric (*Curcuma longa* Rhizome.)

- Use high % of curcuminoids extract.

Therapeutic Properties

- Help in the management of syndrome oxidative and inflammatory conditions, metabolic, arthritis, anxiety, and hyperlipidemia.
- Be an effective antidepressant.
- Help delay aging and fight age-related chronic diseases.

Clove (*Syzygium aromaticum*)

- Use the clove extract having a mixture of 3,4-dihydroxyphenethyl alcohol, 3,4-dihydroxybenzoic acid and eugenol by using our technology extraction.

Therapeutic Properties

- Relieve migraine and pains
- Show anti-inflammation, antioxidant, anti-glycation, antinociceptive and antimicrobial properties.

Plantago major L.

- Use our own technique for extracting clean and high % of terpenoids without chlorophyll from *Plantago major* L.

Therapeutic Properties

- Be effective as a wound healer, as well as an antiulcerative, antidiabetic, antidiarrhoeal, anti-inflammatory, antinociceptive, antibacterial, and antiviral agent.

Mangosteen Extract

- Use the mangosteen extract having high % of xanthones from organic mangosteen peel.

Therapeutic Properties

- Be an antioxidant.
- Reducing inflammation and boosting heart health.
- Believed to fight cancer cells.

Indications

Inhale Thai herbal oil or roll onto pulse points: temples, neck, wrist, and behind ears or apply medication to the effected area and rub in gently and thoroughly. Caution: avoid eye contact with the oil.

From Farms to Formulation (Research & Development Laboratory)

We want to be a part of helping build the sustainable communities to achieve a balance between economic and social growth while considering the limits of natural resources. We support local people to grow herbs and buy their local grown products.
